

German engineering at its best

Toners | Printers | Service | Leasing | MPS

PRESS RELEASE –October 24th 2017

German Imaging Technologies (GIT) confirms its support to UN Global Compact Sustainable Development Goals.

WE SUPPORT

October 16th 2017, Dubai: German Imaging Technologies, the leading printing document solutions provider in the Middle East and Africa, reported on its achievements and progress towards the Sustainable Development Goals, focusing on achieving gender equality (SDG5), promoting sustained economic growth (SDG8) and ensuring sustainable consumption and production patterns (SDG12).

Over the past 12 months, GIT created 23 new positions as part of its commitment to job creation, promoted gender equality in the company, women representing now 35% of its overall workforce and 40% of its senior management team. GIT received its ISO14001 certification in September 2017, recycled 8,160 kilograms of waste, contributed to saving 122,000 kilograms of solid waste and 500,000 kilograms of CO2.

Founded in 1999, German Imaging Technologies has been recognized by IDC as the leading OEM-alternative supplier from 2007 and continues to help more than 2,000 customers in 15 countries across the Middle-East and Africa by providing premium remanufactured toner cartridges, printers, leasing, service contracts and managed print services, helping these customers reduce their problems, costs and environmental impact. The company has embarked on a regional expansion strategy and prides itself in delivering a compelling turn-key printing solution in a reliable, responsible and responsive manner.
